

PRODUCT CARD

Beetlic®

High Energy

Highly molassed extra high energy feed and mineral bucket for cattle and sheep to support optimal health, fertility and performance.

Features & benefits:

- Extra high energy levels from fermentable (sugar) and protected (fat) sources to help support body condition and fertility in breeding stock, as well as growth and performance of growing animals and replacements.
- High protein, from all-natural sources including hi-pro soya, to provide Digestible Undegradable Protein (DUP) to help support milk production in lactating animals and good frame growth in growing animals.
- Fortified with minerals, vitamins and trace elements to help balance potential deficiencies in forages.
- Available as both 22.5kg or 80kg formats to suit your system.

Ideal for:

- Ewes from 2 weeks pre-tupping for 8 weeks.
- In-lamb ewes from 6 weeks pre-lambing.
- Weaned lambs through to finishing or those to be retained as flock replacements.
- Breeding and growing cattle where no extra copper is required.

User guide:

- Offer free-access at a ratio of one 22.5kg bucket per 35 head of sheep or 15 head of cattle, or one 80kg tub per 90 head of sheep or 50 head of cattle.
- Ensure ad-lib forage is always available.

Typical intakes:

- Cattle up to 500g/head/day*.
- Sheep up to 150g/head/day*.

*Consumption will be influenced by number of feedpoints per head of stock, forage availability and quality, other feeds available, age and breed of stock and proximity to water sources.

Product Specification:

Crude protein %	16
Crude fat %	9
Crude ash %	18
Energy (MJ ME/kg DM)	14
Typical sugar (as sucrose) %	24
Calcium %	5
Phosphorus %	0.5
Magnesium %	0.3
