

PRODUCT CARD

PROMOL

All Stock

High protein mineralised meal, containing a mixture of natural (soya) protein to support good frame growth, and urea protein to support ration digestion. Suitable for use in cereal-based premixes or as part of a mixed ration alongside forage. Ideal for cattle and sheep over 12 weeks of age.

Features & benefits:

- An ideal protein meal supplement for use in cereal-based premixes to provide quality, bypass protein (DUP) to support growth and production as well as a high level of effective rumen degradable protein (ERDP) to improve diet utilisation.
- Contains a mixture of both natural (soya) and urea-based protein.
- Contains sodium bicarbonate to help to support rumen function.
- Contains added selenium, zinc, cobalt and iodine to support good stock health, as well as supplementing cereals and forages with major minerals plus vitamins A, D₃ and E.
- Available in 25kg pack size.

Ideal for:

- Home-mixing and premixes for cereal-fed cattle and sheep or those on low protein, forage-based diets.

User guide:

- Suitable for home mixes/premixes alongside cereals or as part of a mixed ration alongside low protein forages.
- Suitable for feeding to cattle and sheep from 12 weeks of age onwards.

Typical intakes:

- 2-8 bags per tonne inclusion with cereals.

Ready Reckoner:
